

Quality Policy

Aurecon is an engineering, design, and advisory company, but not as you know it. We've reimagined engineering.

Our clients' ideas and aspirations drive all that we do. We work alongside them like no other firm to co-create clever, innovative solutions to some of the world's most complex challenges, adding value across the project lifecycle through deep technical and advisory expertise.

We commit to technical excellence in all that we do; further our discipline of innovation and impeccable delivery; inspire cultures of creative innovation and keep forging strong and loyal client relationships.

Aurecon applies an effective Quality Management System compliant with ISO 9001 and commits to honouring customer and industry relevant statutory and regulatory requirements.

William Cox

Chief Executive Officer

We focus our actions on six areas that will safeguard quality

aurecon
*Bringing ideas
to life*

Our leadership

Our leaders demonstrate accountability in how we:

- Communicate, promote and support ongoing improvements in our technical mastery and client experience
- Embed a sound quality focus in our strategy, operations and culture and practice proactive risk management

Our people

- We empower and coach our people to be the true masters of their crafts and be renowned for them

Our clients

We strive to:

- Meet or surpass our clients' expectations through design-thinking, co-creation and creativity whilst demonstrating mastery of our craft with a right first-time attitude
- Understand the needs and expectations of stakeholders – including the communities in which we operate and end users of assets we create - and consider these in our operations

Our partners

- We build mutually beneficial relationships with our partners
- We clearly define requirements and monitor and evaluate performance

Our projects

- We help our clients and their stakeholders make the world a better place through focus, discipline and commitment to excellence
- We practice engineering that has humanity at its heart by applying design led innovation and creating holistic solutions which bring ideas to life
- We safeguard our clients' goodwill and Aurecon's reputation by proactively identifying, monitoring, and treating risks associated with the quality of our services and projects

Our future

- We use our diverse expertise base, experiences, and perspectives to continually improve our systems and processes to ensure we are ready for the future
- We help our clients to explore the opportunities digital disruption presents and help them to transform their businesses
